PROFILE

To work in a forward-thinking organization where I can put my IT skills to good use. The ability to be a competent achiever in a prospective field as a result of training and experience. That will recognize me as an enthusiastic individual with a positive attitude, as well as the ability and willingness to produce a well produced outstanding result, to provide excellent services at all times, and to succeed.

MY JOB DESCRIPTION

- Create pixel-perfect user interfaces that adhere to dynamic design patterns.
- Creating and deploying highly responsive user interface components based on web-based concepts.
- Experience with Typescript, React.js and Next.js concepts and workflows such as Redux, Redux-thunk, Material Ui, Antd, Storybook, TDD (Jest, enzyme) and Webpack. I was also in charge of profiling and improving front-end performance, as well as documenting our frontend codebase.
- I've also worked with backend technologies such as Node.js and Express.js to provide server-side logic for mobile and web applications,as well as MongoDB, GraphQL, API calling, and in-app purchase, REST/RESTful API.
- Adhere to the Agile development and Scrum Methodologies.
